Action Taken Report on Feed Back Forms by the Students

The college takes regular feedback from the students. On the basis of student feedback, some aspects such as field trips and case studies have been introduced in the curriculum.

The major stakeholders are the students who have been participating in sharing of suggestions even after passing out and taking up jobs or joining the family business. Students are provided the requisite tools for study.

After feedback from students on developing their communication skills, we have established language labs to enhance our curriculum on that count.

Curricular for certificate and value added courses are developed keeping in mind the needs of industries where majority of students seek employment.

Considering their feedback, possible measures are undertaken by departments to bridge the gap between industries and academia.

Staff members closely interact with students, staff members, guest lecturers and industry professional to get inputs on syllabus revision.
